

Sample Letter for Students to Write

Date _____

School and address _____

Dear _____,

My name is _____. I am a _____ grader at _____ School in city, state. We have been learning a lot of things this year including: _____, _____, and _____. One of the most exciting things we have learned this year is how to be responsible global citizens, critical thinkers, and future leaders. We have been working with the non-profit organization called Education For All Children (EFAC) to create connections and learn about the lives of exceptionally bright, but under-privileged students in Kenya, Africa. Specifically, we have been working with Mercy, a student striving to go to school and become a doctor.

It cost \$750 to send each student to school for one year. We would love to help one more student. We are asking for your help in making a donation to this important cause. Each student we send to school can change the life of a student and the lives of an entire community.

If you are able to help, please send a check payable to Education For All Children (or EFAC) back to our school address c/o teacher by date. We will send all checks directly to the organization to help support education for these struggling students.

Thank you in advance for your help with sponsoring Mercy and fostering our goal to become responsible global citizens.

Sincerely,
